SUMMARY

Passionate Full Stack JavaScript Developer with 11+ years of experience at Wipro, EY, Publicis Sapient, Cisco, and ZoomInfo. Expertise in React.js, Node.js, Python, and MERN stack. Skilled in AI applications, including fine-tuning models, building RAG systems, and developing AI-powered tooling. Strong problem-solving, collaboration, and adaptability to emerging technologies with excellent communication skills.

EXPERIENCE

ZoomInfo, Senior Software Engineer

Dec 2025 – Present

- Building and maintaining scalable backend services using Node.js and Python to support AI-powered data intelligence platforms.
- Developing and integrating AI tools and automation pipelines to enhance product capabilities and accelerate internal workflows.
- Working with MongoDB for data modeling, storage, and optimization across high-throughput microservices.
- Contributing to React-based front-end features, ensuring seamless integration between backend APIs and user-facing interfaces.
- Collaborating cross-functionally to design and ship robust, production-grade AI tooling used across the platform.

Cisco, SDE-4

May 2021 – Sep 2025

- Team Lead managing a team of 7 members, delivering solutions for Webex Contact Center.
- Led development of a desktop application using ReactJS, NodeJS, and NextJS to ensure seamless and efficient user experiences.
- Actively involved in developing and fine-tuning AI models to enhance product capabilities, showcasing strong expertise in AI integration.
- Leveraged leadership skills to guide the team, ensure project milestones are met, and foster collaboration for successful delivery.

Publicis Sapient, SDE-3

May 2020 – May 2021

- Served Tesco as a client, contributing to core website development using ReactJS for the front-end and NodeJS for back-end microservices.
- Worked with MongoDB for database management, ensuring efficient data handling and storage.
- Developed and maintained Admin Panel using ReactJS and CoreUI for a seamless user interface.
- Contributed to mobile app development with React Native and Redux, ensuring smooth cross-platform functionality and state management.

EY GDS, Software Engineer

Jan 2020 – May 2020

- Served in EY GDS, Client Technology Service Line, responsible for building complex products for both internal use and open market.
- Created pixel-perfect UI using ReactJS to deliver high-quality, responsive web interfaces.
- Implemented BDD practices with Selenium and Cypress.js to ensure robust front-end testing.
- Developed CI/CD pipelines using Jenkins to deploy code on Azure Kubernetes with Docker images, ensuring seamless and automated deployments.

Wipro Digital, Software Engineer

May 2014 – Jan 2020

- Developed and enhanced features for Lloyds Credit Card front-end application built with ReactJS. Actively fixed release bugs and optimized UI performance.
- Followed TDD and BDD methodologies: wrote unit tests using Jest and Enzyme for ReactJS components and implemented end-to-end tests using Cypress.io.
- Conducted code reviews on GitLab to ensure code quality and team collaboration within a 50+ member team.
- Worked on Travel and Expense Management App, contributing to front-end development using AngularJS and back-end microservices with NodeJS.
- Ensured quality deliverables through unit testing for AngularJS and NodeJS using Mocha and Chai under TDD practices.

EDUCATION

Birla Institute of Technology and Science, Pilani

Masters • Technology | 8 CGPA

Maharishi Markandeshwar (Deemed to be University)

Bachelor • Computer Application | 9.2 CGPA

SKILLS

JavaScript (ES6+) • TypeScript • ReactJS • Next.js • React Native • Redux • Node.js • Python • AI/ML • MongoDB • Jest
